THE KIDWELL MEADOWS.-The Washing to Republican of this morning says that Mr. Sharp, mister of transportation of the Balti more and Potemae road, complained at the Health Office yes erday of the condition of the flus in the river to the vicinity of the Long bridge. Health Officer Townshend and Inspector Robinson yesterday began an inspection of the leading, with the purpose of devising sema plan of permacently abating the nuisauce. The deposits of sewage on these flats make an intolerable steech and seriously threaten the health of the inhabitants of that part of the city. Last year the prevalence of malarial disesses in South Washington was traced to this cause. By the liberal use of disinfectants, under direction of Dr. Townshend, the evil was temporarily remedied. Lately the nuisance has become even werse than it was last summer and passengers on trains and others passing over the Long bridge have to hold their noses. It is a rule on the trains to close the doors and wiedows when passing the offeraire spot.

CITY COUNCIL.

The regular semi-monthy meeting of the City Council was held last night.

In anticipation of an election for city officers the corridors and approaches to the chambers were filled with candidates and their friend's.

BOARD OF ALDESMEN. This board was called to order at 8:07 e'clock with all of the members present.

The chairman announced the standing committees, and said that in the appointment the President of the two Boards had endeavored to get a member from each ward on every committee and had succeeded. A communication from the Mayor relative

to the printing of the new compromise bonds was read and received, it being understood that a resolution on the satject would come in from the Common Council, as was the case at a later

Mr. J. B. Smoot introduced a bill in rafer-

ence to the salaries of policemen. He said that the bill would probably bring down upon him the condemnation of some, but be never let any thing of that sort interfere with his sense of public duty. The Mayor had recommended a reduction of the force, but after consultation with members of the force and these who wished to become so, he [Mr. S.] and others had thought best to reduce the salaries instead of number of the force. He therefore introduced the bill. It fixes the pay of the Captain at \$510; L'eutenant at \$460, and each private at \$450. The reduction, Mr. Smoot stated, was about fifteen per cent, the average amount taken from the other salaries, by the Salary bill.

Mr. Strauss was in favor of retrenchment and reform, but could not vote for this bill. The force and salaries were both small eneugh and he would not agree to reduce either. There was a dargerous element now in the community, which was not here before the wir, and requir ed considerable attention.

Col. Reid, while he regretted the necessity for making the reduction, would feel compelled to vote for it.

Mr. Rishiell thought the duties of the polices men were different and much more risky than these of other officers, and that men ought to be wellpaid for performing them.

Mr. Strauss said that the reduction of fif teen per cent was a very serious one to the police; they wore cut a great many shors and clothes, which fact should be taken into consideration in fixing their pay.

Mr. J. B. Smoot urged the necessity of either passing this bill or increasing the rate of tax 1tion. The exporation could not pay the salaries last year. He alleded to the claim that policemen ucderwent more perils now than formerly and detailed the fermer disorder in town was then orowded with sailors and stevedores and the lower part, especially along the whorves was lined with drinking houses. The pay must be cut down or the force reduced.

Mr. Barroughs offerred his resignation as a member of the Board to take effect August 1st. Messrs. Reid, J. B. Smoot and Strauss urged he withdrawal of the resgination; if not finally

The Board then went into joint convention

and without the bar at the meeting of the members of Council last night. The committees were app stating that he had followed in connection with ferred payments to be secured by the notes of the President of the Board of Aldermen, the usual rule of selecting one member of each title purchaser, with satisfactory security and the usual rule of selecting one member of each title to be retained until the purchase money be enomittee from each ward. The Chair read, "This set shall not go into feet * * * nor shall the certificates be

taken up. Mr. Rock said the loose manner in which the reception and cancellation of coupons was such that it ought to have received the attention of former Councils. He reflected upon no one, but desired not to throw temptation iu

any man's way. Mr. Evans saw no objection to putting as many names on the back of coupons, and punching as many holes in it as anybody thought proper, but the only thing that bill would effect would be to keep the tax collectors from ac commodating small tax payers by selling them

Mr. Douglas thought the bill would increase the cash paid into the treasury -- a very desirable object.

Mr. Eighberg never knew that at any time the collectors had dealt in coupons. He believed the coupon business would go out of use after this year. There was not \$5,000 in ccupons now out except in the hands of bankers who would not sell them after the compremise is adopted.

The bill was passed. An account for gas work done at the juil coming up,

Mr. Rock said that the bill was not due, having been unlawfully created. No proper authority ordered the work done. He hoped the Committee on Public Property would call him to give information when they considered this
